Over Neven Hundred Cases Reported, and Hundreds Stricken Down Unknown to the Authorities—Knights of Labor Appeal for Help for Their Members - Knighte

Templar to Open a Hospital.

ISPECIAL TO THE EVENING WORLD. JACKSONVILLE, Fla., Sept. 12.-To-day will probably swell the total number of victims of Yellow Jack to one hunared.

At the beginning of the sixth week there are more than five hundred persons under treatment. A total of 700 cases have been reported up to date, and the yellow fever physicians inform THE EVENING WORLD representative that they have no doubt that almost half as many more cases, probably mild ones. have not been reported, owing to the rigorous quarantine regulations which are en-

Physicians and nurses are still very much needed and are not to be had. There is little danger comparatively when cases are promptly and properly cared for, and the Board of Health has scattered broadcast a circular giving clear directions for self-treat-

circular giving clear directions for self-treatment, so that intelligent people having half-decent accommodations can in a great measure stay the ravages of the disease till a physician can be obtained.

Dr. J. L. Possy, of the United States Marine Hospital Service, has inspected the town of McClenny. He found thirty-five cases there out of a population of only 1,000. Seven had died. It is on a pine level, said to be proof against yellow fever, but there are cypress swamps filled with sawdust, as at Tampa and Plant City.

In Jacksonville the original fever district was in the neighborhood of low lands where sawdust had been dumped for a year or more. The 240 refugees who went on the free Government train to Hendersonville, N. C., yesterday will be quarantined there ten days before they will be permitted to leave.

Col. Fred K. Southmayd, of the National Red Cross Society, arrived from New Orleans to-day with eighteen skilled yellow fever nurses, and Col. Southmayd, who was the hero of the epidemic of 1878, says he can have an unlimited number of nurses on short notice.

an unlimited number of nurses on short notice.

The State Executive Board of the Knights of Labor have decided to appeal to the order at large for help. One thousand members of the Knights herefare out of work and their families are almost destitute. Harry Lee, a leading Knight of Labor is very ill with fever, but hopes are entertained.

The Rel'ef Committee has accepted the offer of Citizen Train, of New York, to leeture in behalf of the sufferers.

Dr. C. H. Mallett, E. C. of the Knights Templar of this city, has secured official sanction for a project for opening a charity hospital under the auspices of the order, and the suburban villa of Mrs. Harriet Hubbard Ayer, of New York, will probably be used for the purpose. A telegram from Chicago Knights Templar proffers financial or other aid.

Galbraith & Grover, of Galbraith Spa, Tenn., offer forty rooms to refugees direct from this city, and the proposition is sanc-tioned by the local Board of Health.

tioned by the local Board of Health.

There are only four cases among the refugees at Camp Perry, and the hospital is isolated from the rest of the camp.

The muggy weather at Jacksonville is bad for the patients, though the number of new cases is not discouragingly larger.

Financial help is coming in generously and acceptably. Richmond sends \$1,000, with many private contributions: the Post-Office Department employees, sent another check to-day, and the noble contributions of New York citizens is coming in good play.

DETECTED BY THE CAMERA.

Mr. Kuch Gets Photographic Evidence Against His Wife and Mr. Landsmann. THE WORLD prints this morning a unique and highly interesting story of the application of the photographic art in obtaining evidence on which to base a suit for absolute

divorce.

August Kuch, a photographer employed in Falk's studio, living in East Eleventh street, suspected his wife, Annie S., of undue intimacy with Gottfried Landsmann, a Customtimacy with Gottfred Landsmann, a Custom-House examiner and a constant visitor at the house. Mr. Kuch sent his wife to board in Margaretville, in the Catskills, during the summer, and he heard that Mr. Landsmann was there too and stopping at the same house on Mes. Kych as Mrs. Kuch.
The jealous husband consulted a lawyer,
who went with him to Margaretville. Mr.

Kuch took a detective photographic camera

Auch took a detective photographic camera along.

They got there Thursday evening and went straight to Mrs. Kuch's bedroom. Most of Mrs. Kuch's clothing was there, but the lady was absent. Just across the hall was Mr. Landsmann's room. There were two people in the bad.

In a moment Mr. Kuch focussed his detective camera, and by a flash of the magnesium light a picture of the couple was instantaneously taken.

In his rage at the discovery Mr. Kuch beat Landsmann's severely over the head. Now he is suing his wife for divorce and Landsmann for \$10,000 damages.

Keep JAMES PYLE'S PEARLINE

less time and with less labor, than anything now known in the way of soaps or washing compounds, which are withal harmless. PEARLINE is harmless to fabric or hands. The many millions of packages of Pearline used annually prove this assertion true—you need it—try it. Beware Peddlers and some unscrupulous grocers are offering imitations which they claim to be Pearline, or "the same as Pearline," IT'S FALSE—they are not, and besides are dangerous. PEARLINE is never peddled, but

sold by all good grocers. Manufactured only by JAMES PYLE, New York.
